For: **SOFT COUNT TRACKING
SYSTEM**

Group Art Unit: 2838

Examiner: Unassigned

BOX MISSING PARTS

Assistant Commissioner for Patents
Washington, D.C. 20231

DECLARATION OF EDWARD SEIDENBERG

I, Edward Seidenberg, hereby declare that:

1. I am President and Chief Operating Officer of Global Payment Technologies (GPT), the Assignee of the above identified application.

2. On May 20, 1999, a reissue application of U.S. Patent No. 5,630,755, entitled **SOFT COUNT TRACKING SYSTEM**, was filed in the U.S. Patent and Trademark Office. The application was subsequently assigned U.S. Serial No. 09/313,335. I was informed that the reissue application was filed with all the requisite papers except a reissue declaration.

3. On July 2, 1999, in response to a Notice to File Missing Parts of Application dated June 24, 1999, our attorneys, Finnegan, Henderson, Farabow, Garrett & Dunner, LLP sent a reissue declaration to Michael Walsh for execution. Mr. Walsh is one of the named inventors.

4. Despite several attempts by Finnegan, Henderson and GPT, Mr. Walsh has refused to sign the reissue declaration. I personally called Mr. Walsh in late July, 1999, and asked him to sign the documents and return them to Finnegan, Henderson. Mr. Walsh, who is no longer employed by GPT, refused to sign the documents because of a dispute he has with GPT over compensation. Mr. Walsh has refused to sign any documents until the compensation issue is resolved. However, GPT considers this issue resolved and concluded. Accordingly, no other negotiations or offers are expected.

5. Under the above circumstances, and to protect GPT's patent rights in the above named invention, GPT's attorneys have prepared and are simultaneously filing herewith a petition to have the attached, executed reissue declaration and power of attorney accepted. The attached reissue declaration is executed by all of the named inventors except Mr. Walsh.

6. All statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further, that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

By:

Edward Seidenberg
